

NormaTec Compression Contraindications

If the any of the following conditions apply to you, you will be precluded from doing any of our NormaTec Compression Therapy options. Unfortunately, with any of the below listed conditions, NormaTec Compression Therapy can be detrimental to your health, unless otherwise advised by a licensed physician. Feel free to contact your physician to obtain medical permission and we will be happy to provide you with the NormaTec Compression services. We will simply add your doctor's permission letter to your profile.

1. Do you currently have any broken or fractured bones?
2. Have you recently had surgery, have stitches, or sutures?
